**We recently purchased a sofa from DreamSeat and Matt Sobel was our contact. We went to these guys because of a reference from another school that used them. We were told these guys were professionals and understand the demands that coaches had on them and made the process easy. We were not disappointed, they made it easy and we got a product that is the best in the business. Coming from a small college price and quality are always something we are looking for and DreamSeat gave us both. We are looking forward to working with DreamSeat and Matt to upgrade our football facility to make it a place our players are excited about being. Thanks again DreamSeat.**
