

April 9, 2015

Dear Potential Customers,

I have been very impressed with DreamSeat and Account Executive Mr. Matt Sobel from the initial interaction through completing the first phase of the project. His opening email with complete mockups of various products with our college brand on each product made an immediate impact on all of us. It was an easy sale for our stakeholders and boosters. Matt was great to work with as our order grew. He had quick turnarounds on several different modifications to suffice our custom needs. He did a great job organizing our order and delivering a quality product.

Our boosters had a chance to go and observe some of their products at the University of Wyoming which helped seal the deal for us as it is a quality product. The office chairs, pub tables and bar stools made an immediate impact on recruits, student-athletes, parents and boosters as it helped brand and unite our department. We have received many compliments on the furniture and expect it to continue to make a positive impression on stakeholders for years to come. We will definitely be purchasing more branded furniture from DreamSeat.

Sincerely,

David D. Vondy
