DREAMSEAT

XZipit Logo Panels

XZipit Panels can showcase just about anything possible: Company logos, events, schools, organizations, championships, clients and much more. If you can draw it, we can produce it.

What is the Size?

- Standard Logo Panel: 7"W x 10"H
- Xpression Logo Panel: 6"W x 9"H
- Note: This is the maximum *design size*, not logo panel size

What is the Logo File Requirement?

- Vector File: .AI / .EPS / or .PDF but must be a vector design
- .JPG / .PNG FILES require a *Logo Redraw fee* to be produced

What is the Turnaround Time?

- Standard Digitizing timeline is 10 days depending on logo detail (note: total days, not only business days)
- Once approved, the logo can be produced in 1-2 days
- For rush jobs, panels can be turned around the same week
- Made in South Carolina Warehouse to maintain quality control

Important Notes

- We can size the logo ourselves after receiving the vector file
- Design to the edge of the template to ensure maximum size
- PMS Colors should be provided (closest match will be used)
- No Gradients (they will be simplified/removed in embroidery)
- Avoid small text (atleast .25" tall at the very minimum)
- **High Stitch Embroidery**: With an average stitch count of 70,000 stitches, our logos are loaded with vibrant colors and high quality stitching.

Dye-Sublimated Logo Panels

For those details that can't be fully captured with threads, we also can create digitally printed XZipit panels.

- 100% Polyester
- Same Size as Original LogoPanels

Design Requirements:

- Full-Color Image/Design
- 300 DPI Resolution
- .JPEG / .PDF / .TIFF
- Formatted for Template
- Additional Fees if design needs to be modified or formatted by our team
