## Zephyr

Our newest innovation, the Zephyr, is designed for areas in stadiums that get the most sun. Designed to provide air flow and a cooler seated experience, the Zephyr is a mesh upgrade over our standard Ovation. Use it in the areas of the stadium that get the most sunlight to keep your fans cool and comfortable even during the hottest events.

### Features

- 1** Temperature tested! Using mesh can reduce surface level heat by nearly 30 degrees F when comparing vinyl to mesh
- 2** Breathable mesh available in custom colors
  - Most cost effective mesh seating option on the market
- 3** Optional armrests & cup-holders front or rear mounted
- 4** Seat numbers are recessed to prevent tampering. Printed with UV stable inks, seat numbers are impervious to weather damage and located on front edge for high visibility
- 5** Ovation seat lock can be used to effectively social distance at any time
  - High Quality injection molded design
  - Aluminum beam mount system with galvanized steel brackets
  - 5 year warranty on structural components and mechanical features
  - Tight unoccupied envelope allows for maximum egress pathways and safety
  - Perfect for safe standing sections in soccer stadiums

### 1 Temperature Test

Using mesh can reduce surface level heat by nearly 30 degrees F when comparing vinyl to mesh. Temperatures taken at 10:00am.

**Vinyl-Blue** // 32.9°C = 91.2°F  
**Mesh-Blue** // 19.1°C = 66.4°F
